NO PAPER

Will be issued from this office next week.

A DANGEROUS INNOVATION.

The following is cut from a late Washington daily paper:

SOCIETY NOTES.—Speaker Blaine gave a dinner party Sunday night to Minister Washburne, at which the President, members of the Cabinet, Justices of the Supreme Court and other high officials were present. Mr. Washburne left the same night to visit his relatives in Maine, and will soon return to his duties in Paris.

Example is a powerful educator. One Sabbath dinner party, composed of men in prominent public positions, will have more influence on the public mind for evil than a thousand good sermons can overcome. Human nature is prone to evil and slow to practice moral instruction. A "Sunday night" dinner party by Speaker Blaine will be held to be a sufficient plea for similar entertainments by others. One false step leads on to another, and the bounds of propriety once scaled, future violations become easy and generally follow each other in rapid succession.

The inauguration of the Republican party promises moral as well as political reform; and up to the present time the hopes of the Christian communities thro'out the country were not disappointed. Congressional bar-rooms and beer shops, with which the capitol building had been deluged for many years, and from which talented members of Congress might be seen emerging and staggering to their seats in the Senate and the House, were closed up, and the rooms appropriated to useful purposes. A Congressional Temperance Society was organized, with our Vice President elect at its head. Congressmen became consistent members of the organization, and many of them zealous workers in the cause. Their example was felt not only throughout the city but over the whole country, and the result is seen in many important temperance organizations and temperance reforms in other places.

If, however, these good deeds are now about to be supplemented by fashionable Sabbath dinner parties at Washington, all that has been accomplished will be more than counteracted by the pernicious effects of the example thus presented for speedy imitation. The Government of the United States was founded by Christian men on Bible precepts. Among these is the zealous observance of the Sabbath as a day sacred to the worship of God. Christianity and the Bible are the basis of the government and the hope for national prosperity and perpetuity. Abolish these and infidelity, communism and insubordination will quickly usurp their places. If, as a people, we once lose sight of our God-given landmarks, and drift out upon the sea of infidelity, ours will be the fate of the nations that in the past have risen, but regarded not God, and are now known only in history as warnings to those who live after them.

There is, however, a bright gleam of hope in the fact that Mr. Blaine's violation of the Sabbath precepts is severely commented upon in Washington and elsewhere; and a movement is already on foot to find some more worthy occupant for the Speaker's chair at the commencement of the 43d Congress.

ANOTHER REDUCTION OF TAXES PROPOSED.

Two bills have been already introduced in Congress asking for a further reduction of internal revenue taxes. It will be remembered that at the last session of Congress the internal taxes were removed from all articles excepting spirits, fermented liquors, tobacco in its various forms, bank circulation, checks and drafts, playing cards, matches, proprietary medicines and perfumery. It is now proposed to wholly discontinue internal taxes excepting on spirits, beer and tobacco. It was estimated the internal revenues of the current fiscal year would amount to about $120,000,000; but the Commissioner, judging from the returns already made, believes that the total for the year will run ten million over the estimate. This is attributed to the increase of business and care and economy in collecting the taxes. It is not, however, probable that any changes will be made during the present session in the schedule of taxes established by the last session of Congress. Already the taxes have been reduced to the lowest figures consistent with the present necessities of the government. About three hundred millions are annually required. Two hundred millions are derived from the customs tariff, and the other hundred millions must come mainly from the internal revenues; which, if confined to spirits, beer and tobacco, would not amount to more than eighty millions. The reduction of the public debt must also be continued; but with the proposed reduction in the internal revenues there certainly would be no funds for that purpose. Better let the taxes just as they are until, through the most rigid economy, the public expenditures are so reduced as to warrant the experiment now proposed.

☞ We learn that H. E. Shaffer, Esq., late editor and proprietor of the Fulton Republican, is about to commence the publication of an Independent paper at at Mt. Union. It will eschew politics and be entirely devoted to local and general news. All right, Harry, we wish you abundant success.

☞ Mr. Speer was very careful not to tell the House, the other day, where he was during the war. He might have told that august body that he was occasionally contributing aid and comfort to the rebels through the columns of a Copperhead newspaper but, then, he did'nt.

☞ A destructive fire occurred in the fifth Avenue Hotel, in New York city, on the night of the 11th inst. in which eleven servants were burned to death, some one is responsible for the awful fate of these poor creatures.

SOLDIERS' BOUNTY.

There was quite an animated debate in Congress yesterday, over the proposition to give to every honorably discharged soldier and sailor 100 acres of public lands, without requiring residence thereon. A war-like Democrat, Mr. Speer, made the debate the occasion of an onslaught upon the Grand Army of the Republic, and upon the Governor elect of this State.

In order to a clear understanding of the subject, we reprint an extract from a letter from the Commander of the Grand Army of the Republic, General H. J. Reeder, which we printed in September last:

"At the Convention of the Grand Army of the Republic of the Department of Pennsylvania, which met in Philadelphia on the 24th day of January last, Col. R. B. Beath (not General Hartranft) introduced, among a number of others, the following resolutions, the first two of which were the only ones introduced at the Convention which had reference to our Homestead acts:

"Resolved, That the Department of Pennsylvania, Grand Army of the Republic, earnestly protests against the passage of any law granting 160 acres of land to honorably discharged soldiers and sailors, or their legal representatives, without actual residence thereon, as being adverse to a sound public policy in the distribution of public lands, locking out for years from the actual settlers nearly 350,000,000 acres, and in no way conferring any appreciable benefit on those it is proposed to serve.

"Resolved, That we cordially approve of an amendment to the homestead acts granting title to 160 acres of the public lands to all who served in the army and navy during the rebellion or the legal representatives of those deceased, after two years' residence thereon.

"The third resolution urged Congress to pass a bill increasing pensions 20 per cent. The fourth resolution asked for a law equalizing bounties; and the fifth resolution was that a committee of five be appointed by the Department Commander of which committee the Department Commander should be Chairman, to present all of the above resolutions to the Senators and Representatives at Washington from this State.

"A long debate ensued on the first two resolutions, in which those in favor of the resolutions took the position: 1st, That the soldiers of Pennsylvania, while seeking the promotion of the interests of the soldiers as a class, were not doing so to the manifest disadvantage of the general Government 2d. That the passage of this resolution would throw upon the financial market of the country such a large number of land warrants—not one soldier in a hundred desiring to become an actual settler—that the warrants would command but a trifle, the soldier would be but little benefited by it, while the country would be seriously and disastrously afflicted. When the final vote was taken, out of 120 delegates present, 13 only voted against the passage of the resolution. General Hartranft, during part of the morning session, was present, *but was not a delegate*, and of course took no part in the proceedings. During the discussion of the resolutions and when the vote was taken, *he was not present in the Hall*, and, of course, did not and could not have had any connection whatever with the passage of the resolutions. I, as Commander of the Grand Army of the Republic, Department of Pennsylvania, appointed General Hartranft as a member of the committee of Five, who were to proceed to Washington in accordance with resolution fifth, *without any consultation whatever with him*, and he knew nothing of his appointment as member of that committee until I informed him of it several days after.

"When we went to Washington with the resolutions, General Hartranft, though a member of the committee, *did not go with us to that city, nor assist us in any way in laying the resolution before either House of Congress*,

"I am, very respectively,

"H. J. REEDER.

"EASTON, PA., Sept 7, 1872."

The arguments advanced in the convention and repeated on the floor of Congress, yesterday, by General Hawley and Messrs Dunnell and Townsend, are unanswerable; and we presume will be so regarded and acted upon by the House.

The debate that grew out of the subject put Mr. Speer before the people of Pennsylvania in a very ridiculous light, in two particulars. The attempt to draw a line between Pennsylvania officers and private soldiers,—an idea which the unfortunate Curtin gave utterance to, in each of his ill-starred speeches against General Hartranft,—is too silly too need extended reply. The roll of officers is crowded with, almost wholly composed of, the men who carried the musket and knapsack; and Mr. Speer floundered through his despicable effort to discredit them, in one breath saying that the privates "*alone* deserve the name of soldiers," and in the next, forced to confess the soldierly gallantry of men like General Hartranft or Colonel Beath.

Mr. Townsend gave a perfectly sound and frank reason for the Grand Army of the Republic's having a semi-Republican formation, when he asserted the patent fact that it was composed of Union soldiers. Mr. Randall, who personally did his full duty as a member of the First City Troop, undertook to deny Mr. Townsend's assertion; and Mr Speer used some very loud words in endeavoring to reverse the history of the Rebellion. That history remains to vindicate Mr. Townsend's declaration that "the rebellion was got up by the Democratic party of the South; that it was carried on by the Democratic party of the South, assisted by the moral influence of their coadjutors—the Democratic party of the North—and that nine-tenths of the soldiers of the war were Republicans, while the remainder of them may have been Democrats." It is too late in the day to seek to efface the fact that if the Grand Army of the Republic is composed, now, principally of Republicans, it is because the Union armies were principally composed of them during the war. It may be an unpleasant fact for Democrats now, but it cannot be helped.—*Philadelphia Evening Bulletin, Dec. 12th.*

RAILROAD CONSOLIDATION.

This subject, which must before the lapse of many years demand the serious consideration of State Legislatures and of the National Congress, has attracted the attention of the Chicago *Inter Ocean*, from which we quote the following remarks:

"Railroad consolidation in the United States will be very shortly so complete that three great interests centreing in Wall street will virtually control the entire railroad carrying of the country. Those interests are the New York Central, the Pennsylvania Central and the Baltimore and Ohio companies.

"In the case of one of those companies—the Pennsylvania Central—its consolidation, under virtually one central power, is already on a gigantic scale. It controls no less than sixty-three railroads, including those under construction. These roads are nearly all made tributary to the main line from Philadelphia to Pittsburg, while there termini are distributed in nearly every State in the Union. Among the roads under the control of this great corporation are the Union, Central and Texas Pacifics. The total extent of these sixty-three lines will be nearly 15,000 miles. The aggregate of capital invested in them will be at least when all the lines are completed, $670,000,000. This is not all. The Central also controls two hundred and fifty miles of canal, and is building a line of four iron ocean steamers of the largest size to run between Philadelphia and Liverpool.

"This addition to the capital under the control of one central corporate authority will make scarcely less than $800,000,000, or about one-third of the entire national debt of the country. These figures are significant of the vast strides the railroads of the country are making toward a complete monopoly of its carrying trade. An empire within an empire, they virtually threaten the integrity of the very State itself. It is worthy of note as a piece of commercial intelligence that all the transcontinental roads will be controlled in Philadelphia."

News and Notes from Washington.

Proposed Amendments to the Constitution—Bill to Increase the President's Salary—Civil Rights and Amnesty—Border Complications—News and Society Notes.

WASHINGTON, D. C., Dec. 11, '72.

PROPOSED CHANGE IN THE MODE OF ELECTING THE PRESIDENT.

Mr. Lynch, of Maine, introduced into the House a joint resolution to amend the Constitution of the United States, so as to provide for the election of President by the direct vote of the people without the intervention of electors. The Vice President to be elected in a similar manner—The solution was referred to the Judiciary Committee. It will not receive special attention, as the proposed change is not generally popular in or outside of Congress, being generally believed to be unnecessary.

Gen. Banks also introduced a constitutional amendment to limit the President to one term of six years, and to be ever after ineligible for re-election. Referred to the Judiciary Committee.

Mr. Banks introduced a bill providing for an increase of the President's salary to $50,000 per annum. This also went to the Judiciary. It is at present no more popular than the proposition of Mr. Lynch. There is a prevailing impression that large salaries are incompatible with the spirit and simplicity of republican institutions and should be avoided in practice.

COMMITTEE ON CENTENNIAL.

The Speaker of the House announced the following as the special committee on the Centennial Celebration: Messrs. Kelley, of Pa.; Dawes, of Mass.; Maynard, of Tenn.; Havens, of Mo.; Sargent, of Cal.; Hawley, of Conn.; Cox, of New York; Marshall, of Ill.; and Hancock, of Texas.

THE CIVIL RIGHTS BILL.

The Civil Rights question has been before the Senate and the House. Opposition to Mr. Sumner's bill comes mainly from the Democratic side of the Senate—from the very men who at the Baltimore Convention were so willing to make every sacrifice to "shake hands over the bloody chasm" and secure reconciliation and harmony among all parties and classes of society. It is believed, however, that the bill will, in some shape, pass both Houses before the close of the Session.

GENERAL AMNESTY.

The House, after discussion, voted on the amnesty bill, 102 for, and 82 against it. As a two-third's vote is necessary it was not carried and went over. It will be taken up, and probably passed before the close of the Session.

PROHIBITION IN THE TERRITORIES.

Petitions from all parts of the country continue to pour into the Senate and the House asking that the sale of spirituous liquors may be prohibited in the District of Columbia and in the Territories. In the States this matter is regulated by local legislation.

THE NEW WAR VESSELS.

The Senate Committee on Naval Affairs met this morning and considered the House bill to construct six new vessels of war.—Secretary Robeson was before the Committee and urged the passage of the bill as originally introduced in the House, which provides for ten ships instead of six.

THE VIENNA EXPOSITION.

The House Committee on foreign affairs to-day had under consideration the Vienna Exposition. It is believed that Government will provide vessels for the transportation of all goods from this country to the Exposition. It is announced to-day that the naval storeships "Supply" and "Girard" will sail from New York for Trieste next February carrying goods for the Austro-Hungarian International Exhibition.

THE FUNDING LOAN.

The Committee of Ways and Means today considered the request of Mr. Boutwell to increase the commission for negotiating the balance of the Funding bill loan. The Committee came to no conclusion, a majority being disposed to oppose any increase.

CABINET SESSION YESTERDAY.

The regular semi-weekly session of the Cabinet was held yesterday. The Louisiana embroglio was considered. Every aid will be afforded the courts in New Orleans in prosecuting the leaders in those violations of law and order. Attorney General Wiliams was instructed and has telegraphed to Pinchback, (who, under the ruling of the United States Court, is acting Governor, pending the impeachment trial of Warmoth,) as follows: "The requisition of the Legislature, transmitted by you, is received. Whenever it becomes necessary, in the judgment of the President, the State will be protected from domestic violence."

THE BORDER DEPREDATIONS.

The commissioners presented to the President, yesterday, their report on the Rio Grande depredations, which they believe to be too serious to be longer endurable, and for which *Mexican officials, civil and military, are largely responsible* They recommend sundry measures of precaution to be established along the frontier; advise the trial by the Mexican Government of General Juan Cortina, the late commander on the Mexican side, and suggest that our soldiers be ordered to cross into Mexico in pursuit of Indians and cattle thieves. The report was complete, full and printed in pamphlet form. It will be transmitted to Congress by the President, accompanied with a special message.

REDUCING THE REVENUE.

It now appears that the faithful and successful collection of the internal revenue will justify this present Congress in wiping out all internal taxes excepting only those on tobacco and liquors. Bills to that effect have been introduced into the House. The Commissioner of Internal Revenue now thinks the yield of internal taxation for the present year will be over ten millions in excess of his expectations.

CONTRIBUTIONS TO THE CONSCIENCE FUND.

Yesterday, two thousand dollars, in coupon bonds, were received from an anonymous correspondent in Boston, at the Treasury Department. The proceeds were turned over to the conscience fund. Today $450 were received from an annonymous correspondent in New York, for duties on wearing apparel.

THE LOUISIANA PRESIDENTIAL VOTE.

Marshal Packard yesterday telegraphed to the Attorney General that the retiring Board had officially announced, after a careful examination of the returns, that the State had gone Republican by 18 861 majority. As the day has gone past for the legal meeting of the electors, and no meeting was held, the vote of the State, to which President Grant was fairly entitled cannot be counted in the general result This must be added to the other sins of Wormouth, who fortunately has got to the end of his official iniquities.

THE NORTHERN PACIFIC ROAD.

The commissioners appointed to examine the railroad and telegraph line of the Northern Pacific Company, have reported to the Interior Department, and find everything satisfactory.

GEN. SPINNER ON DEFAULTERS.

The Treasurer of the United States declined to join in the efforts now being made to obtain the pardon of his defaulting clerks. He holds that breach of trust in public capacities, as well as private, should be followed by swift and certain punishment.

NATIONAL MONUMENT TO MR. GREELEY.

The solid men of Boston have initiated a monument to erect, with the co-operation of friends everywhere, a $500,000 monument to Mr. Greeley. This is folly and somewhat ridiculous in the face of the fact that the half built Washington monument is going to decay at the nation's capital, from sheer indifference to the calls of patriotism.

SOCIETY NOTES.

The first state sociable of the season—that of the Pennsylvania Republican Association, was held at Masonic Hall on Monday evening. It was a very pleasant affair. President Grant, Senator Scott, Speaker Blaine, and other notables entered the Hall about 9 o'clock, and after a little speech-making the company was introduced to the President.

THE UNOFFICIAL INAUGURATION CEREMONIES.

The Minnesota and the New Jersey State Associations, at regular meetings of their members, passed resolutions conceding to the city authorities the right and the honor of preparing for the inauguration ceremonies, and proffered their co-operation. So the threatened war between jealous aspirants will be averted.

Death Of Edwin Forrest.

PHILADELPHIA, December 12.—Edwin Forrest, the great tragedian, was found dead in his bed chamber at his residence, on Bread street, at nine o'clock this morning, by a servent who called him. Receiving no answer, the servant entered and found Forrest, fully dressed, lying dead on the floor. He was sixty six years old and in failing health.

Edwin Forrest was born in Philadelphia on the ninth of March, 1806, and in his twelfth year performed female parts at the old South street theatre. In the following year he assumed male characters, and on the twentieth of November, 1820, he made his debut at the Walnut street theatre as "Young Norval," in Home's tragedy of Douglas. A protracted professional tour in the western cities of the Union ensued, and Forrest returned to the east with a considerable reputation for histrionic ability. After several successful engagements in Albany and Philadelphia, he appeared in New York in July 1826, in "Othello." The popularity he enjoyed may be said to date from this occasion. For several years he acted in the principal theatres of the Union, appearing as "Othello," "Macbeth," "Hamlet," "Richard III," and in other prominent Shakesperean parts, and also in a number of plays by American authors In 1834 he visited England and acted his principal pieces with great success. During a second visit to England, in 1837, he was married to Miss Sinclair, daughter of a well known singer of that name, with whom he returned to his native land in 1838. He went to England on another visit in the year 1844, and remained in Great Britain and upon the continent for two years. In 1849 Mr Forrest separated from his wife, alleging misconduct on her part. Not long after this Mrs. Forrest brought an action for divorce against her husband on the ground of infidelity and obtained a verdict in her favor, with an annual allowance of $3000 alimony. In the year 1858 he temporarily withdrew from the stage to rest for a time from his arduous labors, but soon returned to the stage. He has played ever since that time in all the principal cities in this country, making engagements with each successive season. For a year or two past his popularity has not been as great as it deserved to be.

THE new President of Mexico is forty-five years old.

MEASLES at Hollidaysburg, scarlet fever at Tyrone, and itch at Philipsburg.

THERE is a pretty general condemnation of the long holiday to be taken by Congress.

Col. Ferreer, the Hill street tobacconist, will consider our hat elevated for the present of a bunch of his prime segars. He has a full line of the choicest brands. May his tribe increase.

The young lady who was so unfortunate as to go through the ice to the neck, the other night, is not partial to cold baths. Her teeth chatter whenever she thinks of the adventure

We learn that a railroad is contemplated from Williamsburg to Woodberry. This looks like a road from Mt. Dallas to Petersburg—a rival of the Broad Top. We have been expecting this.

We had the pleasure of meeting J. F. Campbell, Esq., the editor and publisher of the *Mountain Voice*, at Hollidaysburg, on last Thursday. He is a pleasant and chatty gentleman. He prints a very sprightly paper.

On last Wednesday, at McKee's Gap, in Blair county, a butcher named Barr, slipped and rolled down a pair of steps in front of his house. As he tumbled headlong a hatchet flew from his hand and in its downward course struck him in the neck, severing his jugular vein. He bled to death in a few minutes.

On last Saturday, a person unknown to us, caught by the arms, a little girl, a child of Joseph Summers, of this place, and lifted her up, as is frequently done by thoughtless persons, breaking one of them just below the elbow. Dr. Brumbaugh set the broken member and the little sufferer is doing very well.

We are not in the habit of making excuses, but we feel like asking the pardon of our readers for the bad appearance of the inside pages of our issue of last week. The weather was as cold as Greenland, our employees laid too long in bed, and we found it impossible to get our press room sufficiently heated until we were about finishing our edition. It is conceded by everybody that the Journal is the best and neatest printed paper in the county, and its appearance last week annoyed us considerably.

The Dunn Appeal.—The origin of the case is as follows:

The Classis of Mercersburg made an assessment of a certain sum upon the Huntingdon congregation for the beneficiary education of students. Elder Dunn, representing the congregation at Huntingdon, informed the classis that the congregation were unable to meet the assessment, whereupon the classis enjoined the congregation from using, for other purposes any moneys obtained by collection until the assessments should be paid.

In behalf of the congregation, Elder Dunn appealed from this decision of the classis to the District Synod—that of Martinsburg. From the District Synod the appeal, on complaint, was carried to the General Synod.

The question before the Synod was: Shall classis, when they make assessments upon their congregations, have a prior and exclusive claim upon funds in the hands of those congregations to the amount of the assessment?

Nearly a whole day was taken up with the discussion. At its close Elder Dunn's appeal was sustained by a vote of ninety (90) ayes to eighty (80) nays.

At the evening session, the following was offered by the Rev Dr. J. H. Good;

Resolved, That no consistory or other judicatory has any right to alienate any funds from the purposes for which they were contributed but that consistories have the undoubted right to designate the direction which funds in their hands for benevolent purposes shall take, when not specially designated by the donors.

The resolution was copiously discussed, and was finally divided into two sections. The first, in regard to the alienation of funds for specific purposes by consistories, was adopted by a vote of 94 ayes Thirty five members were excused from voting, on the ground that they had previously voted upon the same question.

The second section, comprising the remainder of the resolution, was adopted by the following vote: Ayes, 82; nays, 19. Upon this vote 36 members were excused.

This decision takes the fetters off many ministers and consistories and allows them to aid, through the regularly established boards of the church, students in Sheboygan Mission institute, Heidleburg college and Seminary, at Tiffin, Ohio, and Ursinus college, Pennsylvania. No longer must they aid in the propagation of ritualism or the effete dogmas of the third and fourth centuries.

Once more the churches are free, and Elder Dunn deserves the gratitude of the entire church for his persistent labors under every kind of hindrance and every form of annoyance in pushing this matter to a decision in the highest court of the church. It is really a deliverance from oppression.

The action of the General Synod in these and other maters was so distasteful to those who have been for several years used to sanction innovations, that an effort was planned to divest the Synod of its judicial character, allowing no appeals to be made from lower courts to it, and retaining for it only an advisory character after the platform of the Congregational Association. On a motion to refer such amendment of the Constitution, it was promptly voted down. This was followed by an effort to send down to the classes a proposition for the creation of "*a court of appeal*," which should be a final resort in all appeals and complaints. This court was to consist of two members from each District Synod, and was to relieve the General Synod from all the irritation growing out of appeal cases. There seemed, however, to be a fear in Synod that "*a Snake*" was hidden under the thing, and it was referred to that quiet resting place—"the Committee on the Constitution."

Dry Goods and Groceries, selling at cost, at Summers & Co's.

Dirty Cars.—We have frequently remarked the intolerable condition of the cars used by the Pennsylvania Railroad Company for way passengers. The seats, the backs, the wood work and the windows are covered with a coating of black coal dust so thick that the passenger cannot travel twenty miles without blackening up his clothes and person to such a degree that his own mother would scarcely recognize him. A lady or gentleman has no business in these cars with a respectable dress. A ride of a few miles will leave it the color of soot and only fit for everyday gear. There are times when the passenger is obliged to wear better clothes than a miner or blacksmith in the pursuit of his calling, and, if this happens frequently, he does not feel like standing the expense. We doubt very much whether some of these cars have ever seen water other than that used for drinking purposes. On our recent trip to the west we noticed that the employees of the Chicago, Burlington and Quincy Railroad, at the end of each trip, washed out the cars, rubbed off the woodwork, sponged the windows and removed the cushions and switched out every particle of dirt. These cars had a good odor about them and were pleasant to travel in. We commend this example to those whose business it is to see that the cars are in a proper condition on the Pennsylvania Railroad. The Company expects better things of its employees.

Pennsylvania Railroad Items.—The charter for the Pennsylvania railroad company was approved April 13, 1844. "Letters patent" were granted February 25, 1847. The first election for directors was held March 30, 1847, and on the same day Samuel V. Merrick was elected president. He retired September 1, 1849, and was succeeded by William C. Patterson same day. Mr. Patterson continued in office until February 3, 1852, when J. Edgar Thomson became president, and has filled the office ever since, now nearly twenty one years. The business of the company this year will vastly exceed that of 1871. The gross earnings from January 1, 1872, to November 1, 1872, are $18,228,558. Last year during a similar period they aggregated $15,630,104, showing a balance in favor of 1872 of $2,549,455. This difference will be largely increased the two concluding months of this year.—*Patriot*.

An old lady has been very much annoyed by the offensiveness of a neighbor's pig-sty. Her frequent complaints have brought her into disepute with the aforesaid neighbor's children. A few days since she was passing the neighbor's house and a bevy of little girls, congregated about the door, were very much amused and laughed very coarsely, at which the old lady took umbrage, but not knowing what was said among the children she determined to bribe a bright little three year old boy. belonging to the owner of the pen, by offering him a chestnut, though ignorant of the real source of amusement, he replied quickly: "They said you'd make a good pig-pen."

To Delinquents.—If any of our delinquent subscribers wish to enter the pearly gates of Heaven, they had better "pay up" at once and be put "right" upon the record. It will be seen by the following that people who do not pay the printer punctually, are forbidden entering the celestial realms:

"Tell me, angelic host, ye messengers of love,
Shall swindled printers here below have no redress above?"
The shining angel band replied: "To us is knowledge given,
Delinquents on the printer's books can never enter heaven."

How to Go West.—This is an inquiry which every one should have *truthfully* answered before he starts on his journey, and a little care taken in examination of Routes will in many cases save much trouble, time and money.

The "C. B. & Q. R. R." running from Chicago, through Galesburg to Burlington, and the "I. B. & W. Route," running from Indianapolis, through Bloomington to Burlington, have achieved a splendid reputation in the last two years as the leading Passenger Routes to the West. At Burlington they connect with the B. & M. R. R. and form the great Burlington Route, which runs direct through Southern Iowa to Nebraska and Kansas, with close connections to California and the Territories; and passengers starting from Huntingdon county, on their way westward, cannot do better than to take the Burlington Route.

This Line has published a pamphlet called "How to go West," which contains much valuable information; a large correct map of the Great West, which can be obtained free of charge by addressing the General Passenger Agent, B. & M. R. R. Burlington, Iowa.

Messrs. They desire to settle all accounts themselves and hope they will not be compelled to leave them for collection, thus adding cost and trouble. [dec.18-2t.

Matters and Things on Broad Top.—Dudley, Dec. 14, 1872.—*Editor Journal:*—The epizootic has gotten to Broa Top, and ephipporhinomhoci maketh trouble. Some mines have for a time stopped work on account of it. There is always something in the way to prevent study work. We have often had a scarcity of cars because they were not on the road; often again because there were not enough of engines to bring them here; often again because there was not siding enough at Saxton to allow trains to pass in a hurry. We have got used to wrecks and broken bridges and frozen pipes; and we are used to seeing foundered, sprained, ringboned, broken down old engines trying to do the work of respectable articles of the same class. But this epi hipo zorhinorrheaotic fills the cups. When this passes away, if it does go away, what next may we expect? what, indeed, short of an earthquake might we expect?

We promised in this letter to discourse again of railroads. Now the gentle reader may imagine that the writer hereof says too much about railroads. But the reader must remember that there are at present in this county people who think of little else than railroads; who talk railroad by day and dream narrow guage railroad at night. He must remember also that the people of a large part of this county are just now particularly interested in railroads. And he must remember that there is hardly a man in the lower end of Huntingdon county who does not expect ere another year, to see a railroad pass through his meadow or back yard. It is the business of a correspondent to write of what will most interest the greatest number of his readers. And this is why this, and perhaps a subsequent letter, will discourse so much of railroads.

What a lot of railroads we are to have too. The East Broad Top Railroad is in course of construction from Mt. Union *via* Orbisonia to the East Broad Top coal fields. And the State Line Railroad is to come up into the same region by way of New Grenada or some other South American city. And a railroad is to be made from Hancock indefinitely northward passing the same coal bed. And a Pittsburgh company is to make a railroad up Smith Valley to the same East Broad Top. And the London and North American R. R. Co., will soon lay out a road direct from London by way of Nova Zembla, Labrador and Buffalo to terminate at the same point.

Engineers, for the last five years, have been travelling over the section of country where the above named roads are to converge. If the inhabitants of that region see any two strangers together there they take it for granted that they are engineers laying out more railroads. And this belief is heightened if the suspected persons carry hatchets. George Washington had a little hatchet. Engineers have little hatchets likewise, and they make good use of them. For five years no underbrush has been allowed to stand or grow east of Broad Top. It has all been cut down to allow scope for sighting; and the larger bushes and sapings have been cut to make pickets to mark the different roads or the different routes for the same road. So many such posts have been driven into the ground, especially between Cook's Mills and Scottsville, that it is not safe for a man to walk out at night in that country without running a good chance of breaking his neck falling over them. The people have got now to pulling up these posts and using as firewood. We hear of some families who don't expect to cut or haul any wood this winter. They use railroad pickets. Every few days the engineers come along surveying a new route and drive in a fresh supply of numbered sticks, and these in turn make warm fires.

Railroad civil engineers are the most uncertain class of men of whom we have any account. They never know where a railroad is to be located until after it is graded and the ties down and the rails laid. Then sometimes they find that it is not in the right place, and it has to be moved. A corps of engineers has been engaged for eighteen months in locating one of these railroads, and they haven't got it located yet. Every week they find a new place for it. Every week somebody who is pleased with the prospect of having a railroad pass close to his house, and who sees his hopes verified by the last survey, tells us that this last survey is the decisive one, and that they have just settled on the route that he said at first was the last and only practicable route. And the next week somebody living two or three or four miles to the south or north or west has the same to say of the *last* week's route. We haven't as yet seen anybody in that vicinity who did not in the beginning decide on the best route for that railroad. And no one has been disappointed in not having the route of his selection confirmed by the *latest* survey. And strange to say no resident has found a best route which did not run through or near to his farm. Nor have we yet heard of a man in that locality who does not expect to have a railroad station within fifty yards of his house.

About four of the proposed railroads will run through Ground Hog Valley. The valley will have to be made about twenty-five feet wider to make room for so many railroads through it. There has been some dispute as to whether a valley can be widened without a special act of Congress permitting such increase of territory. The Declaration of Independence says nothing about widening valleys; but the general opinion now is that it can be done by having the Legislature charter a Ground Hog Valley Improvement Company with privilege to build railroads, mine coal, manufacture sewing machines, and carry on the hardware business.

In conclusion we beg leave to say, that if any one does not feel inclined to believe all the mild statements made in this letter, there is no compulsion in the matter.

thorized and required to prepare and submit to Congress a plan for equitably extinguishing, as far as possible, the separate claims upon the government of the United States for annuities and allowances of diminished Indian tribes, and also for providing, on a uniform basis, for all Indians who are collected at the same agency: Provided, That no annuity, either of money or goods, provided for in this act, shall be paid to tribes which are at war with the United States.

Sec. 3. That the Secretary of the Interior be, and he hereby is, authorized to expend for the removal of the Chippewa Indians to the White Earth Lake reservation in Minnesota, for their subsistence for six months after their removal, and for improvements on the said reservation, the unexpended balance of appropriations heretofore made for such removal, subsistence, and so forth, and now on the books of the Treasury Department, amounting, in the aggregate, to fifty-seven thousand and seventy-nine dollars and forty-four cents.

Sec. 4. That the Secretary of the Interior be, and he is hereby authorized, in his discretion, to apply the balance on hand of the appropriation of one hundred thousand dollars, made by the act of July 15th, 1870, entitled "An act for the support of industrial and other schools among the Indian tribes not otherwise provided for," and so forth, at such times, in such sums, and for such tribes and bands as, in his opinion, may be required.

Sec. 5. That the President of the United States and the Secretary of the Interior are hereby authorized to make an appraisement of the Cherokee lands lying west of the ninety-sixth meridian of west longitude, and west of the land of the Osage Indians, in the Indian Territory, and south of the southern line of the State of Kansas, ceded to the United States by the Cherokee Indians under their treaty of July 19th, 1866, for the settlement of friendly Indians, and report the same to Congress: Provided, That the Secretary of the Interior be, and he hereby is, authorized to negotiate with the Southern Cheyennes and Arapahoes for the relinquishment of their claim to the land ceded to them by the second article of the treaty of October 28th, 1867, out of the cession made by the Cherokees in the treaty of July 19th, 1866; such relinquishment, if obtained, to be in consideration of a sufficient and permanent location for the said Cheyennes and Arapahoes, upon the lands ceded to the United States by the Creeks and Seminoles in the treaties of March 21st and June 14th, 1866; and that the Secretary report the action taken by him under this provision to Congress at its next session.

Sec. 6. That the Secretary of the Interior be, and he hereby is, authorized to expend, for the removal of the Winnebago Indians, in Wisconsin, from their present homes in that State to the Winnebago reservation, in Nebraska, or to such other location as may be selected for them, and for their subsistence during such removal, and at their new homes, the sum of thirty-six thousand dollars, or so much thereof as may be necessary, appropriated by act of July 15th, 1870, for the removal of stray bands of Pottawatomies and Winnebagoes from Wisconsin to the tribes to which they respectively belong.

Sec. 7. That it shall be the duty of the Secretary of the Interior to prepare and cause to be published such rules and regulations as he may deem necessary or proper, prescribing the manner of presenting claims arising under existing laws or treaty stipulations, for compensation for depredations committed by the Indians, and the degree and character of the evidence necessary to support such claims; he shall carefully investigate all such claims as may be presented, subject to the rules and regulations prepared by him, and report to Congress, at each session the cost, the nature, character, and amount of such claims, whether allowed by him or not, and the evidence upon which his action was based: Provided, That no payment on account of said claim shall be made without a specific appropriation therefor by Congress.

Sec. 8. That with the consent and concurrence of those bands of the Chippewa Indians of Lake Superior, located on Lac de Flambeau and on Lac Court Oreilles, and also of the Fon du Lac band of said Indians, expressed in open council in the usual manner, the Secretary of the Interior be, and hereby is, authorized to remove the said bands of Indians from the tracts of lands which were set apart for them respectively and withheld from sale for their use, in accordance with the third and fourth clauses of the second article of the treaty between the United States and the Chippewa Indians of Lake Superior and the Mississippi, concluded September 30th, 1854, and to locate said bands of Indians upon the tract of land set apart by the second clause of said article for the La Pointe band of said Chippewa Indians.

The lands rendered vacant under the preceding section of this act shall be appraised by three competent commissioners, one of whom shall be the United States agent for the said Chippewa Indians, and the other two shall be appointed by the Secretary of the Interior, with the approval of the President. After the said lands shall have been appraised, as herein provided, the Secretary of the Interior shall be, and hereby is, authorized to offer the same at public sale to the highest bidder in tracts not exceeding one hundred and sixty acres each, at such place in the congressional district in which said lands are situated as may be designated by the Secretary of the Interior, ninety days' notice of which shall be given by advertisement in at least three newspapers of general circulation published in said congressional district; and if not sold at public sale, it may be sold in tracts of not exceeding one hundred and sixty acres to any one person, at not less than the appraised value, and upon payment therefor to cause patents in the usual form to be issued to said purchaser or purchasers of said lands: Provided, That no bid for separate tracts shall be accepted which may be less than the appraised value of such tract, including the improvements, if any, thereon: And provided further, That bids for tracts having improvements upon them shall state the price for both the land and the improvements. The proceeds of such sales shall be invested or expended for the benefit of the Indians interested, in such manner as the Secretary of the Interior, subject to the approval of the President, may direct.

The sum of seventy-five thousand dollars, or so much thereof as may be necessary, be, and hereby is, appropriated, out of any moneys in the treasury not otherwise appropriated, to be expended under the direction of the Secretary of the Interior, for the appraisement and sale of the said reservations and for the removal and establishment of said Indians, as herein before provided, the sum so expended to be reimbursed from the proceeds of the sales of the lands of said Indians authorized by this act.

Letter from Louisiana.

NEW ORLEANS, LA., Dec. 1, '72.

EDITOR JOURNAL:—Since my last we have had stirring times down here—over, in fact, the entire South, and especially in Louisiana, or more properly speaking in New Orleans—but, as the press probably has already informed you, we have at present a reign of quiet.

The election in Louisiana resulted as follows: Greeley, 66,467; Grant, 59,955. Mr Louis A. Wiltz was elected Mayor of the city of New Orleans by a very handsome majority, and was, on Friday last, duly installed in that office. In his Inaugural message he showed the condition of the city, commercially and financially. It appears that the city debt at present, is over $21,000,000 and three-fifths of the State debt which swells it to $42,000,000. He further shows that the total expenditures of the city, for the past twelve years, including interest on funded debt and the redemption of bonds, have been as follows:

1852	$1,333,000
1853	2,849,000
1854	2,687,000
1855	2,905,000
1856	2,342,000
1857	2,246,000
1858	2,476,000
1859	3,127,000
1860	3,038,000
1861	3,264,000
1862	3,767,000
1863	2,911,000
1864	3,108,000
1865	3,562,000
1866	4,301,060
1867	6,937,000
1868	7,062,000
1869	4,986,000
1870	5,500,000
1871	5,631,504
1872, official estimate	6,961,381

The total valuation of property in New Orleans was in

1852	$66,631,000
1855	71,128,030
1860	121,030,000
1867	139,022,000
1871	158,214,000

It has been impossible to keep up with the details of the horse disease in this city in consequence of its almost simultaneous appearance in every part of the city. So far it has not been confined to any particular class of stables, being prevalent in both public and private stables. Nor has it been confined to any particular class of horses, although it is believed that animals which have been subject to severe exercise have taken the disease more readily and suffered more from it than those kept perfectly quiet. The disease affects mules as well as horses, but always with less violence. All the lines of street cars have been suspended except three, and it is stated they will not succumb unless the disease shall become much more formidable than it is at present. Every conceivable mode of conveyance is resorted to, oxen, dogs, goats, negroes and whites constitute the locomotive power.

Gov. H. C. Warmouth yesterday applied to the Eighth District Court for a writ of injunction against Gen. Longstreet, John Lynch and others, composing the old Returning Board, to restrain them from canvassing and compiling the votes cast at the late election and from publishing the result of the same. Judge Elmore has granted a rule *nisi* returnable on the 6th inst., and in the meantime has ordered the defendants to desist from the acts complained of in Gov. Warmouth's petition. This may cause some trouble yet, as some of the newly elected officials have already entered upon their official duty in the respective offices to which they were elected.

Affairs at the City Hall, under the partial new *regime*, look cheerful and hopeful. The only disagreeable feature noticed is the throng of place-hunters; nevertheless it would be unjust to inveigh against men simply because they desire to become the servants of the people. In this number vast numbers are doomed to disappointment, as well in the municipal as State or national office-seekers. A lot of sore head hangers-on, small politicians, generally of French, Spanish or African extraction, or carpet-baggers—the latter has but little chance at the City Hall just at present, 'their cake is baked.'

Weather continues beautiful, as pleasant as a September in the old Keystone State. CROCIUS.

WISHART'S PINE TREE TAR CORDIAL.

NATURE'S GREAT REMEDY

FOR THE

THROAT AND LUNGS.

It is gratifying to us to inform the public that Dr. L. Q. C. Wishart's Pine Tree Tar Cordial, for Throat and Lung Diseases, has gained an enviable reputation from the Atlantic to the Pacific coast, and from thence to some of the first families of Europe, not through the press alone, but by persons throughout the States actually benefitted and cured at his office. While he publishes less, so say our reporters, he is unable to supbly the demand. It gains and holds its reputation—

First. Not by stopping cough, but by loosening and assisting nature to throw off the unhealthy matter collected about the throat and bronchial tubes, *which causes irritation*.

Second. It removes the cause of irritation (which produces cough) of the mucous membrane and bronchial tubes, assists the lungs to act and throw off the unhealthy secretions, and purifies the blood.

Third. It is free from squills, lobelia, ipecac and opium, of which most throat and lung remedies are composed, which allay cough only, and disorganize the stomach. It has a soothing effect on the stomach, acts on the liver and kidneys, and lymphatic and nervous regions, thus reaching to every part of the system, and in its invigorating and purifying effects it has gained a reputation which it must hold above all others in the market.

VINEGAR BITTERS——PURELY VEGETABLE—FREE FROM ALCOHOL—*Dr. Walker's California Vinegar Bitters.*

No person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means; and the vital organs wasted beyond the point of repair.

Dyspepsia or Indigestion, Headache, Pain in Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Billious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. In these complaints it has no equal, and one bottle will prove a better guarantee of its merits than a lenghthy advertisement.

For Female Complaints, in the young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that a marked improvement is soon preceptible.

For Inflammatory and Chronic Rheumatism and Gout, Billious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

They are a Gentle Purgative as well as a Tonic, possessing also the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver and Visceral Organs, and in Billious Diseases.

For Skin Diseases, Eruptions, Titter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scald head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Grateful Thousands proclaim *Vinegar Bitters* the most wonderful Invigorant that ever sustained the sinking system.

HEALTH! BEAUTY!!

Strong and pure rich blood—increase of flesh and weight—clear skin and beautiful complection secured to all.

DR. RADWAY'S

Sarsaparillian Resolvent has made the most astonishing cures; so quick, so rapid are the changes the body undergoes under the influence of this truly wonderful medicine, that every day an increase in flesh and weight is seen and felt.

The Great Blood Purifier.

Every drop of the Sarsaparillian Resolvent communicates through the Blood, Sweat, Urine and other fluids and juices of the system the vigor of life, for it repairs the wastes of the body with new and sound material. Scrofula, Syphilis, Consumption, Glandular disease Ulcers in the Throat, Mouth, Tumors, Nodes in the Glands and other parts of the system, Sore Eyes, Strumous Discharges from the Ears, and the worst form of Skin Diseases, Eruptions, Fever Sores, Scald Head, Ring Worm, Salt Rheum, Erysipelas, Ache, Black Spots, Worms in the flesh, Tumors, Cancers in the Womb, and all weakening and painful discharges, Night Sweats, Loss of Sperm, and all wastes of the life principle, are within the curative range of this wonder of Modern Chemistry, and a few days' use will prove to any person using it for either of these forms of disease its potent power to cure them.

If the patient, daily becoming reduced by the wastes and decomposition that is continually progressing, succeeds in arresting the wastes, and repairs the same with new material made from healthy blood—and this the Sarsaparillian will and does secure.

Not only does the Sarsaparillian Resolvent excel all known remedial agents in the cure of Chronic, Scrofulous Constitutional, and skin diseases; but it is the only positive cure for

Kidney & Bladder Complaints,

Urinary and Womb diseases, Gravel, Diabetes, Dropsy Stoppage of Water, Inconteneuce of Urine, Bright's Disease, Albuminuria, and in all cases where they are brickdust deposits, or the water is thick, cloudy, mixed with substances like the white of an egg, or threads like white silk, or there is morbid, dark, billious appearance, and white bone-dust deposits, and when there is a pricking, burning sensation when passing water, and pain in the Small of the back and along the Loins. Price, $100.

WORMS.—The only known and sure remedy for *Worms—Pin, Tape &c.*

Tumor of 12 Years' Growth Cured by Radway's Resolvent,

BEVERLY, MASS., July 18, 1869.

DR. RADWAY:—I have had Ovarian Tumor in the ovaries and bowels. All the Doctors said "there was no help for it." I tried every thing that was recommended; but nothing helped me. I saw your Resolvent, and thought I would try it; but had no faith in it, because I had suffered for twelve years. I took six bottles of the Resolvent, and one box of Radway's Pills and two bottles of your Ready Relief; and there is not a sign of a tumor to be seen or felt, and I feel better, smarter, and happier than I have for twelve years. The worst tumor was in the left side of the bowels, over the groin. I write this to you for the benefit of others. You can publish this if you choose.

SURPRISING.

It is really surprising how rapidly

Dr. Wengert's Family Medicines

are becoming popular all over the country. Thousands are daily praising them for their many virtues and say they would not be without them in their families. To you who have never tested them, we would say if you have *Fever and Ague* you cannot do better than use

DR. WENGERT'S

MOUNTAIN HERB BITTERS.

For *Liver Complaints, Scrofulous Affections* and Diseases arising from Impurities of the Blood, use

THE INDIAN VEGETABLE

Restorative and Blood Purifier.

Dr. Wengert's Magic Balm

has no superior for the speedy and effectual cure of *Coughs, Colds, Bronchitis* and Diseases of the Respiratory Organs.

THE SAMSON OIL

need only to be tried to convince the most incredulous that it will cure *Nervous Headache, Cholera Morbus, Colic, Cramps, Sprains, Bruises, &c.*

Dr. Wengert's Hepatica Pills

are an Alternative Cathartic, and can be used for an ordinary Cathartic or Physic, and should always be use in connection with the MOUNTAIN HERB BITTERS in severe cases of Fever and Ague. We know that there is continually being palmed upon the people some *wonderful* preparation that is without merit or virtue, therefore the people lose confidence in preparations that do possess virtue. Yet it would certainly be unwise and unreasonable to condemn all the various remedies offered to the public because some are disgraceful humbugs. All we ask is for you to give

Dr. Wengert's Family Medicines

a fair trial, and if they are not deserving of your praise and confidence, then denounce them in your strongest terms.

Fouse's I. X. L. Horse and Cattle Powders

AND THE

A FEW REASONS

WHY THE

ARION PIANO

IS SUPERIOR TO ALL OTHERS:

The ARION PIANO-FORTE has greater power than any other Piano-Forte manufactured.

It will Stand in Tune Longer,

and in its mechanical construction it is more perfect, and, therefore, more durable, than any instrument constructed in the usual modern style.

The arrangement of the Agraffe, the manner of stringing, the peculiar form and arrangement of the Iron Frame

SUPERCEDES ALL OTHERS

The use of a bar (which is a part of the Iron Frame on a line with the heavy steel stringing,) gives

GREAT STRENGTH

where most needed, and in this respect all other pianoes fail.

The construction of the WREST PLANK, into which the tuning Pins are inserted, is such that it is impossible for the pins to come loosened, or the Wrest Plank itself to split, as is too often the case in other Piano-Fortes.

The Extraordinary Evenness

throughout the scale, the excellent Singing Quality, the

LENGTH AND PURITY OF VIBRATION,

all go to prove what we claim, viz: that the

ARION PIANO-FORTE

Is the Best Instrument Manufactured.

Having more power, with a sweeter tone, than any other Organ in the market notwithstanding the representations of agents interested in the sale of other Organs, *we do fully warrant every Organ for the period of five years, (at our own expense.)* We have no agent in Huntingdon at present, therefore all who may want one of the best Organs extant may receive, by corresponding with us, a price and descriptive list from which a selection may be made, to which we will give *our* personal attention, and guarantee satisfaction,
